

2020 Chief Fire Officer Program Registration Deadline 12/15/19

PROGRAM FACTS

This program meets all the certification requirements for Illinois OSFM Chief Fire Officer level and Fire Officer III and IV level. The program is designed and intended for command level officers and/or administrators who have the responsibilities of supervising and administering a Fire Department or Fire District. Officers preparing for a chief level position are encouraged to apply.

The majority of the program is on-line with only one classroom session for each class. The program is divided into 12 modules containing one class each and three independent study projects that require a written research paper. If you are outside the Chicago metro area please contact us for possible alternative delivery methods. We are hoping to have enough students to fill two classes again this year. Please note the location and delivery day changes.
